

PUBLIC LANDS READY FOR PARCELLING OUT

Over 40,000 acres of territorial lands in all districts of the islands are practically available for settlement. Land Commissioner Pratt has compiled a statement of such lands, the approximate value of the same being \$206,017.03, or an average of about \$5 per acre.

The Commissioner has also compiled another list showing lands available for settlement, lease, sale or other disposition. The present leases on these lands are expiring. Of these, including lands classed as agricultural, pastoral, forest and waste there is a total acreage of 477,919.83.

"We have three survey parties in the field at present cutting up lands to make them available for settlement," said the Commissioner yesterday. "There are 1500 acres of first-class cane land in Hilo district, 8000 acres on Maui and 1000 acres on Kauai which are being cut up for use for settlement."

"So you see the Land Office is doing a large amount of work in the preparation for settlement of public lands, preparing the way for whoever desires to become a bona fide settler."

The list of untaken lands in the various districts, ready to be taken up are as follows:

LIST OF UNTAKEN LOTS FIRST LAND DISTRICT.

Map	No.	LOCATION.	Ag. area	App.	Lots. in acres.	value.	Class.
